All

We can deliver to towers as instruction below [REDACTED] **s 47** we need to put something in place to ensure delivery to these towers and minimise exposure as much as possible, there will also be a letter that the PDO will need to take. [REDACTED] **s 47** I will need you to arrange the parcel product to come up to Nth with [REDACTED] or a van driver first thing in the morning so they can also be delivered. You will need to still scan daily as a FM and send up the following day, a transfer scan into Nth Melb DC where they will get a Delivery scan when handed over to the control tower

Team,

We need to attempt delivery on this basis.

Can you communicate with DCs & PDCs.

We should attempt delivery tomorrow and if successful then clear anything they was pre carded at the Post Offices.

I am also working on getting something in writing so we can provide this to our people to assist in getting access to the command post at each building.

Let's discuss on the 2:30 call in the next few minutes.

That's a great piece of work George. They are in total disarray so to get that outcome is just great.

Thanks for staying on it.

Shane - Don't be surprised if this process isn't well understood if you attempt to deliver, so yell out if you have any issues.

Hi All,

Just had confirmation by the State Control Centre on the processes they have put in place for the locked down towers. The process is as follows:

- The SCC (Emma McKenzie) has coordinated all mail from the Flemington Post Office to be delivered to the Command Post Foyer at each tower.

- From their recipients will be contacted by VICPOL / DHHS etc and mail delivered to them from there.
- For mail / products coming from other areas they are all to go the the Command Post Foyer at each location.
- VICPOL / DHHS will coordinate as required.

Handover of mail / products will need to be confirmed and approved (if required) by AP as we will not be able to deliver direct to each recipient.

Hope that helps.

Any questions please just ask.

Regards
